

LINK 100W+

DMSAPPTLIN100P

DESCRIPTION

This product generates electricity using solar panels. The electricity generated in this system is stored in batteries and allows the consumer to charge his laptop, mobile phone and other small electrical equipment anywhere. Also, by using multiple outputs according to the product model, the lighting and connection of DC and AC devices with low power can be used.

OUTSTANDING CHARACTERS

- Portable and light
- Convenient and easy to use
- Use monitor and LED to display device and battery status
- Long lifespan of solar panel
- Smart battery charge control
- Protected against short circuit, overload and voltage
- Low price to performance
- Low weight and small dimensions Folding panel design
- Output 12 volts and 220 volts
- No pollution and sound
- No need for fuel, Repair and maintenance

APPLICATIONS

- Use in suburban trips
- Travel and mountaineering camps
- Herders, beekeepers and nomads
- Charging electrical equipment (mobile, tablet)
- Charging drones and small rechargeable devices
- Emergency lighting
- Natural disasters and accidents

SUPPORT & WARRANTY

- Machine warranty 2 years
- Battery warranty 6 months
- Support 24/7
- service (repair / replacement) 3 years

OVERVIEW

Solar Panel (W/V)	40/20
Battery type	Lithium ion (Li-ion)
Battery capacity (Ah/V)	20/11.1
Charging cycle (T)	Up 500
Controller recharge (A)	3
Charging time (h)	8-10
Recharge input	Solar Panel / Electricity of city / Car lighter
Monitor	Battery status / Output connection status / Warning
Weight (Kg)	2
Dimensions (Cm)	21 x 16 x 10

ELECTRICAL SPECIFICATIONS

Generated power (W)	100
Power of moment (W)	150
220V output	1
12V output (A)	3*10
USB output (A)	2*2.4
Output QC (A)	1*5
Type C output	1
Accessories	Charging adapter+Car charging cable
Internal LED lamp	1/70
Charging temperature	-10 ~ 45 °C
Protection	Charging too much , Excessive discharge , Overload , short circuit , Reverse battery connection
